As of Thursday Jan 27th at 9:35 PM, he is still listed as Alberta North organizer here under "Alberta -> North" https://canada-unity.com/bearhug/ . (1)

states to his followers that attendance is mandatory:

Journalists have also been threatened in Thunder Bay :

https://twitter.com/atRachelGilmore/status/1486760444425609226 . Another online commentator that has been travelling with the convoy calls the media "the enemy" in this clip at the 4:37 time mark in this clip from Medecine Hat:

I join Sandy Garossino, former trial lawyer, in asking that a perimeter be established outside of downtown and let the protesters come on foot:
"Given the size of vehicles, the necessity to maintain road access in the capital, and the inability to park commercial trucks in most parking lots, authorities should establish a perimeter outside Ottawa & require protesters to demonstrate on foot."

If that is impossible, at the very least, the army needs to be present inside the parliament buildings before the convoy arrives. The CBC Ottawa and CTV News offices need to be protected.
